PAKHRE ROHIT PRAVIN

Full Stack Developer (MERN) Surat, Gujarat, India | +91 9313464767 | pakhrerohit281@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Aspiring Full Stack Developer specializing in the MERN Stack (MongoDB, Express.js, React.js, Node.js) and Web Architecture. Proficient in building scalable Web Applications and designing User Interactions on web pages. Expert in Prompt Engineering, leveraging Large Language Models (LLMs) to accelerate development cycles by 40%, optimize code quality, and automate documentation. Seeking to leverage technical Programming Languages and skills in a professional environment to build high-impact digital solutions.

TECHNICAL SKILLS

- **Front End Languages & Frameworks: React.js, Redux Toolkit, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS.**
- **Back End Languages & Architecture: Node.js, Express.js, Python, RESTful APIs, Microservices Architecture, Web Architecture.**
- **Database Technology: MongoDB (Mongoose), MySQL, SQL Basics.**
- **AI & Productivity: Prompt Engineering, AI-Assisted Debugging, GitHub Copilot.**
- **Tools: Git, GitHub, Postman, NPM.**
- **Soft Skills: Excellent verbal communication, Problem solving skills, Attention to detail, Project management, Organizational skills.**

PROFESSIONAL EXPERIENCE

Lead Full Stack Developer | Learning Management System (LMS) | GitHub Link

- **Engineered a production-grade LMS platform for Web Design, improving data retrieval speeds by 30% through optimized MongoDB indexing.**
- **Architected a centralized database for Web Architecture to manage complex user progress tracking for 500+ active nodes.**
- **Designed and developed APIs to ensure cross-platform optimization for mobile and desktop responsiveness, increasing accessibility scores by 25%.**

Backend Engineer | Microservices Authentication System | GitHub Link

- **Developed a decoupled authentication service in TypeScript, reducing inter-service latency by 20% for better web architecture.**
- **Implemented secure user sessions using JWT and Argon2, reducing security vulnerability risks by 40% in website applications.**
- **Established RESTful API endpoints for multi-service token validation, maintaining 99.9% service uptime.**

Full Stack Developer | Real-Time Chat Application | GitHub Link

- **Created a live messaging platform using Socket.io, achieving sub-100ms message latency for real-time communication.**
- **Integrated real-time status features and attention to detail in UI/UX to improve user engagement metrics by 15%.**
- **Managed global state with Redux, reducing unnecessary re-renders by 35% for a smooth Single-Page Application (SPA) experience.**

EDUCATION

Bachelor of Science in Information Technology (BSc.IT) Vidhyadeep University, Surat, Gujarat | *Expected Graduation: 2027*

CERTIFICATIONS & TRAINING

- **Prompt Engineering for Developers: Mastered advanced prompting (Few-shot, Chain-of-Thought) to enhance coding productivity.**
- **MERN Stack Development: Comprehensive training in full-stack JavaScript and RESTful API design.**

CORE COMPETENCIES

- **AI-Driven Development: Skilled in using AI tools to refactor legacy code and generate unit test cases.**
- **Scalable Logic: Deep understanding of Web Architecture and Microservices to ensure applications grow with user demand.**
- **Problem Solving: Focused on writing efficient, DRY (Don't Repeat Yourself) code to minimize technical debt.**
